

SENATE RUSHES BILLS TO QUIT FOR A HOLIDAY

Legislative Branch Working Under High Pressure Today.

PRESIDENT BLAMED

Harding Charged With Interfering With Legislative Action.

(By the Associated Press)
WASHINGTON, Aug. 23.—The senate at noon today resumed its business under high pressure with the expectation of reaching a decision on a thirty day recess to go into effect tomorrow. Both houses were in session last night. The house did not adjourn until it passed the administration railway funding bill and the senate was in session until 11:15 when it had been shown where it was necessary to take a final vote today on the shipping board bill calling for \$48,500,000.
The senate debate last night brought in part a hot discussion of President Harding's appearance before that body last month to oppose at that time the passing of the soldier bonus bill. The discussion was started by Senator La Follette, republican of Wisconsin, who charged the president with interfering with the legislative branch of the government. More than a dozen others spoke, the president being both criticized and upheld for his action.
In addition to taking a final vote on the shipping board bill, the senate today was expected to vote on the appropriation of \$200,000 for the expenses of the disarmament conference, and on the president's proposal to instruct delegates to the conference to fight for an open session.

REED UPBRAIDED FOR HIS SPEECH

Attack on Volstead Was Intended to Strain Relations, Belief.

(By the Associated Press)
WASHINGTON, Aug. 23.—By a vote of 181 to 3 the house today adopted a resolution concerning Senator Reed, democrat of Missouri, for his speech in the senate last Friday during which he referred to Representative Volstead, of Minnesota, author of the prohibition act.
The resolution, offered by Representative Dutton, republican of Minnesota, declared that Senator Reed's remarks were "improper and cast an ungainly reflection on the character of an American member of the house." The resolution committee stated in their report that the remarks were intended to establish unfriendly relations between the house and senate.
The resolution requested the senate to take action, which house member said, would have the remarks made by Senator Reed removed from the congressional record.
The resolution was adopted without a roll call, both republicans and democrats voting for it. There was practically no debate on the matter.

ADA MAN PHONOCUES KISMET MASTERPIECE

One of the News force saw "Kismet" presented at Tulsa some weeks ago and pronounced it a real masterpiece. To begin with, the settings are of the most gorgeous and give one a splendid view of Eastern extremes of luxury as well as squalor. Otis Skinner, as the crafty old beggar who makes his way on his nerve, presents the many sided traits of oriental character most faithfully.
The gentle, the abiding faith in fatalism, the deep rooted spirit of vengeance which flares up when opportunity to pay off old grudges are all there. The wise young caliph who in disguise wins the heart of the daughter of the old beggar and marries her after her father has been sent to prison for an attempt on the life of the ruler whose taking off is sought by his grand vizier is the center of the stirring plot.

OKLAHOMA WEATHER

Tuesday and Wednesday generally fair, with probable showers in certain sections.
Phone 4 is the place to get service in job work or advertising.

MONDAY'S HEAT RECORD RIVALS SUNDAY REPORT

(By the Associated Press)
OKLAHOMA CITY, Aug. 23.—Another day of excessive heat was recorded Monday according to United States weather bureau officials in the morning's report. With five important points of the state heard from it was found that the average daily temperature was 102.8 or four tenths of a degree lower than it was Sunday. Durant and Mangum reported the highest temperatures, each giving a report of 107 degrees.
This is the second day that the 107 degree record has been felt at Durant. Lawton and Ponca city reported 106 degrees and Altus, Kingfisher and Okemah 105 degrees. Weatherford was only a few degrees lower. Most of the cities of the state stood at 103 degrees, weather officials said.
No rain was reported in the state during the 24-hour period which elapsed at 7 a. m. today.

IRELAND SEEKING FOR PEACE BASIS

The British Soldiers Stand Ready to Prevent Any Outbreaks.

(By the Associated Press)
DUBLIN, Aug. 23.—Members of the Irish Republican parliament, who gathered here today to discuss the reply to the British government concerning the offer of dominion government for Ireland, divided their attention between the session of the parliament and a meeting of the executive council of the government. Both meetings of the bodies were held in the Mansion House and it was believed that action taken by the Irish Republican parliament would form the basis for a settlement of the Irish controversy.
The meeting was attended by several of the released Sinn Fein soldiers. Soldiers of the crown were held in readiness to interfere should it become necessary, but up until this morning no interference had been attempted by the British soldiers on the so-called rebels.

AMERICAN FEDERATION AT WORK DRAFTING POLICY

(By the Associated Press)
ATLANTIC CITY, N. J., Aug. 23.—The executive council of the American Federation of Labor today started work on the drafting of a policy to serve as a "guide for the labor movement of America."

SERVICE MEN PROTEST AGAINST UNEMPLOYMENT

(By the Associated Press)
ST. LOUIS, Aug. 23.—Several hundred men, some said to be ex-service men, paraded through the downtown streets of the city today in a protest against unemployment here. Steps leading to the parade were first taken yesterday when 250 men applied for a job as a clerk in a ten cent store.

SECOND SCOUT GROUP RETURNS FROM CAMP

After having a "rip-roaring" good time in Honey creek, in the Arbuckle mountains, the second group of Ada scouts has returned home, glad to be back but pleased with the four days' trip to the mountains.
The boys were in charge of Scout Executive Harry W. Miller and Oscar Parker. Twenty-eight local boys went. They report that the part of the country they visited is the attraction for a large number of people.
The camp location was selected in a place where the boys had access to all the amusements afforded. Trips to Turner Falls, Crystal Cave and other places in the mountains were made.

LEGLESS MAN WILL TRY 200-MILE WALK

ARDMORE, Aug. 23.—A walk 200 miles on his knees with the aid of his crutches is the task which "Shorty" Erwin of this city will begin early Monday morning. Erwin is going to Ranger, Texas, via Fort Worth for a visit with relatives and is assuming this unique method "just to show the people that when a fellow loses his legs he is not handicapped."
The task is self imposed and he hopes to average seven miles a day, walking thirty days of the time and resting ten days.

THREE HELD FOR MARTIN'S DEATH ARE GIVEN BOND

Dyer, Chapman and Good - Winners in Habeas Corpus Proceedings.

BAIL SET AT \$5,000.00

Defendants in Roff Murder Case Will Make Bond Today, Is Word.

Bond, set at \$5000 each, was allowed Jim Good, Obie Dyer and Dick Chapman charged with the murder of George Martin at Roff last May, in an order handed down Tuesday morning by District Judge Hal Johnson, of Shawnee, sitting on a special habeas corpus hearing here for the three men.
Petition for bail for Dyer, Chapman and Good was filed several weeks ago immediately after the preliminaries in which all were bound over to the grand jury on the murder charge. Jim Good, whose home is at Roff, was represented in the preliminary by A. L. Bullock, Roff attorney, and the cases of the other defendants were represented by John Crawford, of the law firm of King and Crawford. Judge Johnson announced his decision this morning immediately after the three men were conducted into the court room by Sheriff Bob Duncan.
Attorneys for the defendants said all three would make the \$5000 bond Tuesday.
Judge Johnson's decision in the habeas corpus hearing came after two weeks of reviewing testimony taken in the preliminaries. The petition was introduced in the district court when Judge Johnson opened special session here recently but because of a crowded docket he was unable to give judgment at that time.
Frank McClintock, the first man arrested in connection with the killing of Martin, was denied bail by the criminal court of appeals at Oklahoma City two months ago.

U.S. WILL REFUSE TO PERMIT BREAK

No Hostilities Growing Out of Costa Rican Move Allowed.

(By the Associated Press)
WASHINGTON, Aug. 23.—The American foreign department in a not forwarded to Panama yesterday, stated emphatically that the United States would not permit any hostilities growing out of the occupation of the Coto region by Costa Rica.
The American note was a reply to a communication from the Panama government, intimating that if Costa Rica should attempt to reoccupy the Coto territory, force would be used, unless it was made clear that America would not permit it.
The reply stated emphatically that all attempts to use force would be met by the United States.

\$12,000 REWARD IS OFFERED FOR CAPITAL SLAYER

(By the Associated Press)
OKLAHOMA CITY, Aug. 23.—A reward of \$12,000 was offered today by Governor Robertson for the arrest and conviction of the person or persons responsible for the death of Dan Gingrich, wealthy hotel man of this city, whose body was found last Thursday night in a lake at an amusement park here. This makes a total reward of \$12,000 which has been offered for the conviction of the slayer.
Meanwhile city and county authorities and private detectives are working on the case with the view of throwing some light on the mystery, which has up to this time baffled them all. No progress has been made toward the finding of the murderer since the investigation started.

Not Far From the Ooze
Professor Garner reports that the "fe" is apes says "Moo-hoo," and the male ape replies "Wahoo."
Evolution doesn't seem to have carried us very far. At a dance last week we heard a chap address a girl, "Who's is oo?" and the girl replied, "It's oo's."—Wayside Tales.

LEGION MEMBER WANTS TO VISIT HIS SHELL HOLE

(By the Associated Press)
RHEIMS, France, Aug. 23.—Many of the American Legion delegates left here this morning for a visit to the battle field after the ceremonies at Verdun yesterday. One said "I want to see my old shell hole in the Argonne." The Americans on the trip passed through Mon Faucon, Romagne, on the way to Rheims.
At the Rheims cemetery, where several American soldiers are buried, the Legionnaires held a special service. French people from nearby brought many flowers for the services.

SEEKERS OF ALMS MAY BE GRAFTERS

Head of United Charities Warns Red Cross of "Rescue Worker."

Deadbeats, some of whom seek to ply their illicit trade even behind the mask of charity, are warned against in a letter received here Monday by Mrs. Orville Snead, head of the Pontotoc county Red Cross, from E. J. Phelps, president of the state United Charities.
The statement came in response to a letter from Mrs. Snead asking the reputation for reliability of a woman who is said to have applied to the local Red Cross for recommendations to assist her in soliciting the city for funds to maintain a "rescue home."
"These people have made their headquarters in Muskogee for some time," Phelps said in the letter, "and they have no standing here. They keep no accounts and you did right in refusing them the permission asked for. In their dress they imitate the Salvation Army. We have had them arrested once or twice and the police here have instructions to stop them, but they still do slip around and solicit here more or less. The money that they get is spent for their own support. Although they do help someone occasionally and get a letter of acknowledgment assistance which they show in soliciting funds.
He took the groceries
"I know of several instances similar to the following: Their solicitor was in a grocery store, telling the proprietor a hard-luck story about a family. A woman who heard it told the grocer to send them a bill of groceries and charge it to her account. The next day the delivery boy informed the lady that the solicitor had ordered the groceries delivered to his own home," Phelps continued.
"They should not be permitted to solicit at all and we have practically stopped them here," he said.

GASOLINE IS NOW 16 CENTS IN ADA

Lowest Price in Many Years Prevails; Club Loses Part of Tax.

Gasoline is selling in Ada today for 16 cents a gallon, the cheapest it has been in several years. At least two of the garages are selling gas for this price. Whether more had set this low price was not known at the office of the News at 12 o'clock.

FORMER SOLDIER SUING FOR LOTS

Smigelsky Would Cancel Tax Deed and Regain Property Here.

A general demurrer entered by the defense Tuesday morning in the one day's special session of district court here, in the case of Frank D. Smigelsky, former soldier against W. H. Constant and Calloway Harbert for the recovery of two town lots, the tax deed to which is held by the defendants, was overruled by Judge Hal Johnson.
Smigelsky, who was formerly connected with the faculty of East Central Normal, now lives in New York City. Sometime after he enlisted in the army, title of the property is said to have been transferred when the lots were sold for taxes. The suit, which is to recover the lots and cancel the tax deed, will be decided at the next regular session of the district court here. Smigelsky is represented by Robert Wimbish, of the law firm of Duncan and Wimbish, and the defendants are represented by attorney C. F. Green.

Smigelsky's army service is set forth in the plaintiff's statement. Counsel for the defense maintains Smigelsky did not file the suit within six months after he had been discharged from the army and that he is not a married man, the dependents of whom were living on the property during his absence.

SENATE AGREES TO CONFORM GRAIN BILL

(By the Associated Press)
WASHINGTON, Aug. 23.—The senate and house today agreed to conform the report of the committee on the Trencher bill to regulate future dealings in grain. The bill has been taken to the president for his signature.

LODGE OBJECTS TO MOTION FOR OPEN SESSIONS

Five Nations Will Send Delegations to Washington if it is Shown.

WILSON STAND CITED

Enough Publicity to Keep Public Informed Is Recommended.

(By the Associated Press)
WASHINGTON, Aug. 23.—Because of the opposition of Senator Lodge, one of the delegates to the disarmament conference, Senator Harrison today withdrew his resolution directing American delegates to demand an open session.
Senator Lodge told Senator Harrison that he objected to the open session because five nations had been invited to send representatives to Washington. "In the nation's good name," the senator said, "we should not ask them to come here and then present a resolution asking for an open session, in which they are to take part."
He also talked at length on the attitude of President Wilson when he attended the Paris conference, stating that the conference had not only been held behind closed doors, but that all word and actions taken were for a time kept from the American people.
"I do not believe that any one will go to the disarmament conference representing the president who would not favor the publicity which would benefit the people, and who would favor the meeting behind closed doors, or that one delegate shall not privately talk to another about the actions of the conference. Our purpose is, of course, for a system which we all know will not be impossible as well as impracticable. We have got to draw the line somewhere and the feature of the conference can not be determined by a resolution of this nature."

GASOLINE IS NOW 16 CENTS IN ADA

Lowest Price in Many Years Prevails; Club Loses Part of Tax.

Gasoline is selling in Ada today for 16 cents a gallon, the cheapest it has been in several years. At least two of the garages are selling gas for this price. Whether more had set this low price was not known at the office of the News at 12 o'clock.
According to N. B. Stall, president of the Good Road Motor Club, all of the selling stations with two exceptions are no longer donating to the club a cent for each gallon sold, necessitating the pulling off of all men now at work on the Lawrence road. The club will continue in existence, he says, but will have to restrict its work to other lines than road building.
Mr. Stall is of the opinion that the one cent tax will sooner or later be restored, but of this, of course, he is not certain.

Giant Dirigible Is Warming Up Tuesday for American Trip

(By the Associated Press)
HOWDEN, England, Aug. 23.—The dirigible, ZR-2, which has been purchased from Great Britain by the United States, commences its trial trip at 7 a. m. tomorrow. British and American officials were in charge of the giant balloon which will start its flight for America at noon. It was said that today's flight would be the final test of the aircraft before Commander Louis H. Maxfield of the U. S. navy and his crew took charge.

MOROCCAN CHIEF WILL SURRENDER TO SPAIN

(By the Associated Press)
MANILA, Aug. 23.—Chief A. D. Krim, leader of the rebellious Moroccans, has sent emissaries to the high commissioner of Spain stating that he was willing to surrender, it was announced today. The reason for his surrender is said to be on account of his failing health.

Do you have a lot for sale, a house, an automobile, a cow, horse or anything else that somebody else wants? The quickest, cheapest and most satisfactory way to dispose of this is by using a "for sale" ad in the Ada Evening News.

ADA SHOULD GET CREAMERY, LOCAL MEN ARE AGREED

Efforts to locate a creamery in Ada will prove successful, local men who are behind the movement predicted Tuesday. Farmers have signified their willingness to furnish all the cream a good creamery could handle.
This will be the chief obstacle to overcome, it was said. "If farmers can be interested in raising more milk cows, the location of a creamery here would not be a difficult matter. Of course we will have to work up enough interest in this before any man or group of men will be willing to put out money for installing a creamery," one man said.
A creamery in Ada would open the path to better times for all farmers, it was shown. It would not only furnish a market for their cream, but it would also make it possible for them to have money on hand, and get some ready cash for the investment in milk cows and the feed required to keep them. It would also be a year-around proposition, it was pointed out.

PLEADS HE COULD NOT BE MURDERER

Hightower Says He Is Not Capable of "Brutally Killing Priest."

(By the Associated Press)
REDWOOD CITY, Cal., Aug. 23.—William A. Hightower, charged with the murder of Father Patrick Heslin, was closeted for an hour and a half with District Attorney Frank Swartz last night. Hightower sought to convince him that he was incapable of a crime so brutal as murdering a Catholic priest.
As a poet and philosopher, which Hightower claims to be, he could not possibly be guilty of such a crime.
Hightower made numerous admissions to the district attorney, but the attorney has refused to make known their nature. When informed that William F. Herron had filed a petition for a writ of habeas corpus for his release Hightower exclaimed: "I don't want any of their assistance. I'll get plenty of money for my defense and I'll choose my own attorney."

PANAMA WILL AWAIT FURTHER AMERICAN ORDER

(By the Associated Press)
PANAMA, Aug. 23.—Panama's reply to the latest note from the American government in which it was told that the district along Costa Rica, which forms the frontier of this country, would be made the jurisdiction of Costa Rica, has been considered by the Panama cabinet, and will possibly be delayed until Wednesday.
Although it was generally believed that all orders to troops to hold themselves in readiness to resist the occupation of the disputed territory, it was known that they had not gone further than a small boundary town. It is said that they have been instructed to hold the town and if necessary to march to the Coto territory. The Panama government, it was learned today, will await further advice from Washington before taking decisive steps.

FIRE DAMAGES STOCK OF ADA STORE TODAY

Several hundred dollars worth of damage was done to the stock of cigars and confectionery supplies of J. H. Kuykendall at his stand in the McSwain early this morning by fire, water and smoke. It was reported that the fire started from the peanut roaster, smoldering all night only to blaze up when the door allowed a draft to enter.
Firemen were unable to prevent it doing considerable damage as the smoke from burning tobacco was so thick they could not effectively fight it. About \$120 in currency and checks were also burned. No exact estimate has been made of damages.

JAZZ MUSIC CAUSES MILK TO FLOW BETTER

WIGGINS, Miss., Aug. 23.—James Chamberlain, farmer near here, claims to have discovered a unique way of increasing the flow of milk from his cows.
The Chamberlain farm has been the scene of many dances of late, and in explaining the many festivities, Mr. Chamberlain avers that he finds on the morning after the dances, particularly when the music lasted until the "wee sma' hours" the milk of his cows has been greatly increased.

CLARA SMITH IS MARRIED TO HER MOVIE DIRECTOR

Wedding of Woman Freed of Murders Charge Is Surprise.

SENDS MESSAGE BACK

"Wonderful Man and Good" Telegram to Sister Declares.

(By the Associated Press)
LOS ANGELES, Aug. 23.—Clara Smith, who was acquitted in Ardmore, Oklahoma, several months ago when tried for the murder of Jake L. Hamon, was married here late Monday to John Gorman, a motion picture director.
After obtaining license to marry, the couple drove to the residence of the Rev. Howard Fagan, pastor of the Wilshire Boulevard Christian church, who performed the ceremony.
Mr. Gorman announces that he and his wife would make their home here. Mrs. Gorman has been engaged since last April in making a film under his direction.
ARDMORE, Aug. 23.—Clara Smith was married in Los Angeles Monday afternoon to John Gorman, sent a telegram to her sister who lives at Wilson, Oklahoma, saying "married John Gorman 4:30 p. m. Wonderful man and good. Clara." The marriage of Clara Smith to her director came as a surprise to her sister. Only once has Clara referred to Gorman in her letters and then she casually mentioned that he was director of her company which was formed at Fort Smith, Ark., some five months ago. The company has started filming events of Clara's life during the latter part of May.

BIG INCREASE IN VALUE OF FARMS

Increase of 80 Percent Is Shown in Decade by New Report.

(By the Associated Press)
OKLAHOMA CITY, Aug. 23.—Farm property in Oklahoma increased 80.5 percent in value in the past decade, or from \$919,198,882 in 1910, to \$1,660,423,544, in 1920, according to the official figures of the fourteenth census of the United States, Department of Commerce, made public here today.
The number of farms in Oklahoma in 1920 was 191,988, the completed figures show. The number of white farmers was 173,263, and negro, 18,725. A much larger percentage of the 5,791 foreign born farmers in the state own their property than do native born white farmers, according to the census. Of the foreign born farmers, white 4,593 were owners, 17 were managers, and 1,181 tenants. Of the native born white farmers, 79,136 were owners, 133 were managers and 87,593 were tenants. Of the negro farmers, 9,488 were owners, 85 managers, and 9,152 tenants.
There were 15 women who managed farms and 5,613 assisted as farmers. There was 3,983 female owners of farms listed, and 1,895 tenants. These are exclusive of farmer's wives.
The total acreage of Oklahoma farms was 31,951,934, the census showed, of which 18,125,321 was in improved land. From 1910 to 1920 the number of farms increased 19 percent, and the total acreage, 10.7 percent.
Last year 71.9 percent of the state's land in farms.
Compared to 1910, land and farm buildings increased 4.6 percent, improvements and machinery 187.1 percent, and livestock 41.7 percent.
The value of land and buildings per farm in 1920 was double that of 1910, increasing from \$3,884 to \$7,105. The value of the total alone was \$36.60 compared with \$22.49 in 1910.

SHIPPING BOARD BILL IS PASSED BY SENATE

(By the Associated Press)
WASHINGTON, Aug. 23.—The shipping board deficiency bill, calling for an appropriation of \$48,500,000, to be used by the new board, was passed today by the senate.

GOVERNMENT OWNERSHIP

The News is of the opinion that about all the American people thoroughly cured of the diseases of government ownership of railroads. The one experience with this attack is enough to last the present generation. One of the strongest arguments against government ownership that we have seen is a statement by Edward N. Hurley, former chairman of the United States Shipping Board under a democratic administration. Mr. Hurley says:

"I have found that men commonly drop a third of their former energy and efficiency after even a short season on the Government pay roll. The railroads have had the same experience under Government operation. It extended to their managers; the men who had formerly been accustomed to settle affairs on their own responsibility found that they had to pass all important questions on to Washington. At first they resented this; soon they found it a convenient and thought-saving practice. Several of them have told me that a few more years of responsibility-passing would have made different men out of them, for they found themselves shirking decisions which ordinarily they would have welcomed. They learned to dodge responsibility."

A well organized business tries to prevent buck-passing, it puts responsibility on individuals. The Government's organized to facilitate buck-passing—nobody is ever responsible for anything—and our type of human being grows only according to the responsibility that is placed on him.

"But a government undertaking merely goes back to the trough for more money. There is a big difference, and human affected mightily. And the effect upon human nature is so great that whatever theoretical savings we may plan for public ownership are wiped out in practice by the decrease in the efficiency of the human beings."

A CREAMERY NEEDED

It is most gratifying to learn that Secretary Walker of the Chamber of Commerce is making progress towards securing a creamery for Ada. He is in correspondence with one in another state that wants to come here and he is very hopeful of a successful outcome of the negotiations. He states that he has the sold backing of the business men of Ada and that there is every reason to believe that Ada will in the near future be the center of a big creamery trade.

Heretofore it has been impossible to induce enough farmers to keep cows to make a creamery profitable, but the country now faces a situation which differs from anything it has ever gone up against. There is an abundance of feed in the country, but high freight rates are keeping it from being shipped out, hence the only chance is to feed it at home and realize on the product. This will at all times afford a ready home market for feed and give the farmers something to sell the year around. The boll weevil bids fair to put cotton growers out of business and dairying offers the quickest solution to the problem. There may not be enough cows in the country now, but we believe this condition can be soon be remedied and that we can be put on a permanent basis of prosperity. The dairy business has brought wealth to other countries, so why not Pontotoc county?

Another bidder for fame and fortune has appeared. His claim is based on his assertion that he has discovered a means of producing rain and that he has made millions of dollars this year for the farmers of western Canada by doubling the rainfall. In Africa the rainmakers make use of whistles made of antelope horns, some twenty-odd years ago the United States government had a handsome surplus in the treasury and a slice of it was appropriated to try the effect of dynamite explosions on the clouds. About that time a faker from Australia appeared with what he claimed was a machine that could bring rain just any old time, unless of course, his machine happened to get out of order just before the rain was due. A company was incorporated in Kansas which offered to banish drouth from the western part of the state for the small sum of five cents an acre. We had almost forgotten this ancient history, but here another catcher of suckers bobs up and asserts that he can handle the rainfall and will do it if the financial arrangements are satisfactory.

The fight in the Texas legislature to cut salaries of the faculty of the state university and A. & M. college is in keeping with the time honored custom of Americans to begin economizing at the expense of the educational system.

Now that Col. Simmons, Grand Wizard of the Ku Klux Klan, has been elected president of Lanier University, will the next graduating class discard the time honored cap and gown and appear in flowing robes?

MAYBE A FISHING TRIP WILL DO HIM GOOD

The Evening News of the Press

The "Choc" Industry

Did it ever occur to you that the prohibition question is just as big now as it was before the country did away with the open saloon? This country manufactures lots of corn whisky and more of choc beer and what is true of us is true to every other section of country. Home-brew has come in for an important place in many hundreds of homes where it was unnecessary when purchases could be made. Alcohol is so easily made, it can be made in so many different ways, it possesses such a charm to many people that to get rid of it is impossible. The Choctaw beer industry here, however, is being worked a little too well. It is too plentiful. There is too much of boldness in peddling it. A general smashing campaign ought to be waged and such heavy expense should be placed on the business as to make it too expensive and too hazardous to engage in. Give evil an inch and it will take a mile. When one of these fellows thrives with sales in the thickets for a few weeks, a dozen more are encouraged to enter the business. Two runaway cars on the streets of the city the past week placed in hazard a number of lives. There is not much judgment in being a crank on the liquor business. A large percentage of men who once develop the habit have their powers of resistance so completely broken down that if they cannot get some kind of drink they turn to the worse evil of drugs. The drug habit is worse than alcohol for the individual and lays heavier tax upon the community. In law enforcement men are confronted with some very stubborn facts and judgment is usually used with mercy for these victims, but the open choc joints do nothing but breed more alcohol fiends that often develop into drug fiends and the open joints ought to be smashed to smithereens before another 24 hours pass. We have all kinds of people. It requires patience and forbearance to deal with the array of humanity that must be dealt with by the law enforcement officers, but a heavy tax is laid upon the community when joints are allowed to operate that result in the raising new crops of people addicted to the drink habit. The addicts already created are entitled to mercy. They have reached that point where their minds do not respond to their best interests and to the best interests of their families but any system that produces

WHEN MEMORY IS POOR, EVEN THE ODDS JUDGE SAYS

While an interpreter sat close by to explain what the contending parties were saying, Justice of the Peace W. H. Fisher heard two Mexicans exhaust practically their entire vocabulary yesterday afternoon in denouncing each other over an old debt that had torn the two families.

One Mexican had brought a garnishment action against his countryman to recover \$24 which he alleged was due him. In his own tongue and with as much force as he could command, the second answered that he had paid all but \$18 of the alleged debt and would stand pat on his refusal to pay it again.

Then Justice Fisher took a hand. After the court, the interpreter, attorneys and much patience had proven to no avail in pouring oil on their troubled waters, the judge gave them warning that each had a poor memory and dismissed the case. He split the cost between them and the two were on friendly terms before they left the room.

Field for Extension Work Among Children Is Located in Ohio

(By the Associated Press)
WASHINGTON, Aug. 23.—Selection of the town of Mansfield in the county of Richardson, Ohio, as the location of its five extension fields for the development of children was announced today by the National Children's Welfare committee. The Ohio community was asked to assist in making this district the most typical American community in which to develop children.

The district will be in charge of Dr. W. H. Brown, who formerly held a like position in Brion, Conn. He will be instructed to commence today to show what can be done through cooperative action to improve the health and strength of children in the rising generation.

BUREAU WILL CENTER WORK WITH SOLDIERS

WASHINGTON, Aug. 23.—Veterans' difficulties in obtaining government aid are expected to be greatly minimized by the consolidation of all governmental agencies administering soldier relief under one head—the Veterans' bureau. That is what Colonel Charles R. Forbes, of Seattle, Director of the bureau, promises. The day of dual responsibility, of divided authority in the government's dealings with former service men is ended, he says, and troubles of long standing among the veterans will rapidly disappear. Responsibility for adjusting claims, attending to medical needs and of educating disabled veterans, is definitely fixed under the law creating the Veterans' Bureau. It rests squarely upon the director, rather than between the War Risk Insurance Bureau, the Federal board for Vocational Training and the Public Health Service, the three agencies that formerly administered aid independently.

The problem of providing medical facilities, including hospitals, regarded as the most difficult of all those coming within the jurisdiction of the bureau. Plans already under way for its solution. The bureau announces that the \$18,000,000 appropriation for hospital construction will be supplemented by use of authority given the director to enter into contracts with State, municipal and private hospitals for the immediate accommodation of veterans in need of hospital care. The announcement says that 6,800 new beds will be placed in use for soldier patients by January next year. Other duties of the director include inspection of all hospitals having soldier patients, guardianship of 26,630 war risk patients now being cared for in 800 private and 90 government hospitals, command of all Public Health Service doctors and nurses engaged in soldier rehabilitation work, education of men whose earning capacity was impaired by service and who must be taught new means of support, administration of an insurance business with 651,054 active and 397,890 policies and a computed value of \$2,980,660,235, and the average \$1,000,000 a day expenditures by the government in meeting the compensation and insurance claim which are increasing at the rate of 800 claims a day.

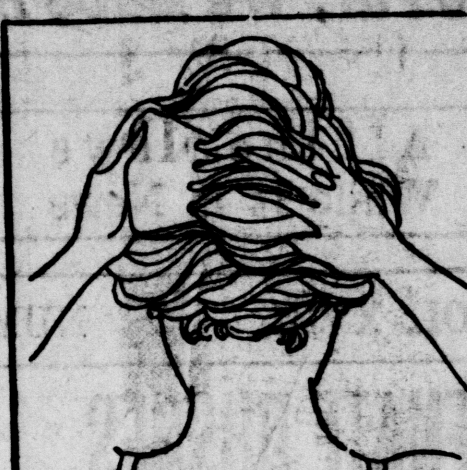

NEGRO IS GIVEN 2-YEAR STRETCH ON GUILTY PLEA

Bob James, negro, was sentenced to serve two years at hard labor in the state penitentiary at McAlester on a charge of forgery in the second degree, upon his plea of guilty before District Judge Hal Johnston here Tuesday morning.

Robert Frazier, another negro, is expected to enter a plea of guilty on the same charge later in the day. James will be taken to McAlester by Sheriff Bob Duncan within the next few days.

James and Frazier are alleged to have cashed a "bogus" check early in August for the amount of \$7 at a local clothing store. Another charge against the men alleges that they forged a check, secured the money, and then snatched the check from the merchant's hands to destroy evidence. James made no statement when allowed a chance to do so before sentence was pronounced.

The man who invented a want-ad was on to his job. It is the quick road to results. Try one.

For Thick Heavy Hair Use Cuticura

TREATMENT: Touch spots of dandruff and itching with Cuticura Ointment on the end of the finger. Next morning shampoo with Cuticura Soap and hot water. Rinse with tepid water. When you have made your scalp skin clean, sweet and healthy then will your hair become soft and thick.

50 WAGONS OF INDIANS ENGAGED IN POW-WOW

PONCA CITY, Aug. 23.—Fifty wagon loads of Indians have arrived here to take part in the big Pow-wow to be held at the 101 ranch from September 1 to 5. Appropriations for the five days event are reported to have amounted to \$20,000. Moving pictures will be taken.

OBITUARY

The son of Mr. and Mrs. J. P. Taylor of Sasakwa died in the local hospital at 2:40 this morning after several days' illness. The body was taken to Sasakwa today for burial.

Band Meets Tonight

There will be a meeting of the band boys tonight at scout headquarters. All who belong to the band, whether scout or not are invited to come. The meeting will open at 7:30.

QUICK RELIEF FROM DREADFUL CHILLS AND FEVER

Leading Doctors Are Prescribing Swamp Chill Tonic

Here's good news for the afflicted—good news for the sufferers from malaria who haven't yet tried this wonderful old remedy—Swamp Chill and Fever Tonic.

Ask your neighbors about it; everybody who has tried it will talk to you in words of praise. Then go to your dealer and get a bottle—follow the simple directions—and in not more than three days you'll entirely rid yourself of all the misery of shivering, shaking, and burning with fever. Swamp Chill Tonic is absolutely reliable. It is tasteless and easy to take. It contains no calomel. It is made of purely vegetable ingredients and from—exactly the right combination for the effective relief of malaria, chills, ague, fever, colds, grippe, "flu," etc.

All dealers recommend and sell Swamp Chill Tonic. 60 cents a bottle. Try one. D294

Dearborn St., Chicago, Ill. 8-20-31*

DIRT TRACK SPEED DEMONS

Kansas City Boy to Give French Champion Whirl at State Fair

Leon Duray, new champion of the dirt track, who with his Oldfield Golden Submarine is spinning through the racing season tossing track records into the discard, will lead the list of speedsters entered for the Oklahoma State Fair to be held at Oklahoma City, September 24 to October 1.

A track in condition for record breaking, new faces and new speed-wars, together with the fact that Ray Claypool of Kansas City has jumped to the fore and is pushing the French champion hard for his title, which may drop during the season, will combine to make the meet highly successful and draw a bigger attendance than ever this year. Among others entered are E. Ted Hill, English racer, who drives a Templar "Special" and sensational Ray Lampkin with his Dusenbergs.

Automobile racing days will be Saturday, September 24, Wednesday, September 28 and Saturday, October 1. The races will be held under the sanction of the International Motor Contest Association.

FREDERICK—The small son of Mrs. Aubra L. Selba wounded his mother severely in the face, recently when he took down a loaded shot gun from behind the door of the home, and announced he was going rabbit hunting, according to Mrs. Selba. The physician who treated her wounds said they would leave permanent scars.

Stories of Great Scouts

By Elmo Scott Watson

© Western Newspaper Union.

BEN CLARK, WHOM THE INDIANS CALLED "MI-E NO-TO-WAH."

When General Custer's Fighting Seventh charged down upon Chief Black Kettle's Cheyennes on the Washita to the tune of "Garryowen" that cold November morning in 1893, at his side rode a man whom the Indians recognized, and they shouted to each other "Look out for Red Neck! He's a dead shot!"

Clark played an important part in Custer's campaigns that year, but his most valuable services were performed as a scout for Gen. Nelson Miles in the war with the Cheyennes, Arapahoes, Comanches and Kiowas in 1874. His greatest feat was his part in the rescue of the Geronimo sisters, two little white girls who had been captured when their parents were murdered by raiding Cheyennes in their Kansas home.

Two of the girls, Adelaide and Julia Geronimo, were recaptured from the Cheyennes when Lieut. Frank Baldwin struck the camp of Chief Gray Beard so suddenly that the Indians had no chance to kill their prisoners, as they usually did. The girls informed General Miles that two of their sisters, Catherine and Sophia Geronimo, still were held by another band of the Cheyennes.

Ben Clark immediately set out to discover where they were. After a long search, he found that they were in the camp of Chief Stone Calf. General Miles secured a photograph of Julia and Adelaide and on the back of it he wrote a message to the other sisters telling them that every effort was being made to rescue them. He gave this message to a friendly Indian who visited Stone Calf's camp and, unobserved by the Indians, slipped it into the hand of one of the girls.

The general next sent a message to Stone Calf, demanding his surrender and telling him that no mercy would be shown his warriors unless the Geronimo girls were brought to the nearest army post alive and unharmed. In a short time Stone Calf came in to the Cheyenne agency, surrendered his white captives and all four sisters were reunited. Ben Clark's scouting had not been in vain.

When the Cheyennes were finally subdued, Clark settled down at Fort Reno, Okla., with them. He became their interpreter in all their dealings with the white men, and the Cheyennes came to honor "Red Neck" as much as they had feared him when he was fighting against them. Later he was custodian of old Fort Reno, and when he died a few years ago, after more than 50 years in the government service, his passing was mourned by white and red men alike.

\$2 STATE FAIR SHOW, 50C

World Famous Acts to Amuse And Awe Grandstand Crowds

A glassy ice pond shining in the sun before the largest grandstand in the southwest and skimming over it like elves, two gay dancing figures.

This is to be an Oklahoma State Fair scene. The Alaska Duo of artistic and thrilling ice skaters bring skating to the fair for the first time. The Duo brings its own plant to freeze its rink.

The Alaska Duo and nine other big time vaudeville and hippodrome acts contracted for afternoon and evening grandstand performances are a high-priced entertainment in themselves. At the fair they are but a feature of the fifty cent program that is above the regular two dollar class. Other headliners furnished by F. M. Barnes, the largest booking agency in America, are Emerson the daredevil of the air, and his crack flying circus; Kenney, Mason and School who offer their first fair appearance, hazardous equestrian tricks on roller skates; the famous Cevenne troupe of wire dancers, the internationally known Al Sweet and his singing band; the trapeze acts of the Flying Valentines and Fisher sisters; De Carlo, who does hair-raising aerial tricks on a pole a hundred feet high, including "the Drop of Death" and Thaler's dog, monkey and pony circus.

The Greater Alamo Shows will be on the midway. This augmented carnival, with the old standbys such as the Old Mill and the roller coaster, and the Carousel, will make the fifteenth annual exposition at Oklahoma City—September 24 to October 1, jollier than ever.

ANOTHER WOMAN ESCAPES

Mrs. McCumber Avoided a Serious Operation by Taking Lydia E. Pinkham's Vegetable Compound in Time

Georgetown, Ill.—"After my first baby was born I suffered so with my left side that I could not walk across the floor unless I was all humped over, holding to my side. I doctored with several doctors but found no relief and they said I would have to have an operation. My mother insisted on my taking Lydia E. Pinkham's Vegetable Compound and I soon found relief. Now I can do all my own work and it is the Vegetable Compound that has saved me from an operation. I cannot praise your medicine too highly and I tell all of my friends and neighbors what the Compound did for me." Mrs. MARGARET MCCUMBER, 27 S. Frazier St., Georgetown, Illinois. Mrs. McCumber is one of the unnumbered thousands of housewives who struggle to keep about their daily tasks, while suffering from ailments peculiar to women with backache, sideaches, headaches, bearing-down pains and nervousness, and if every such woman should profit by her experience and give Lydia E. Pinkham's Vegetable Compound a trial they would get well.

DEMURRER IS ENTERED BY DEFENSE COUNSEL

The hearing of pleas and demurrers opened in county court this week and supplemented a civil docket in keeping the court grinding. Preliminary matters are being disposed of as rapidly as possible in preparation for the opening next Monday of a big criminal docket composed largely of cases involving liquor charges.

Yesterday the county court went into session to hear a demurrer in the case of the state against Emmett Phillips, et al, on a charge of disturbing a religious meeting. The defendants were represented by Attorney Bob Roland. Consideration of the demurrer was continued by County Judge Tai Crawford to allow the defense more time to collect materials. Many of the cases to come before the court in its annual July session are cases appealed from the city court, it is understood.

Liberal Advances Will Be Made to Carriers of U. S.

(By the Associated Press)
WASHINGTON, July 7.—Secretary of the treasury Mellon announced today that under the provisional refunding arrangements made with the railroad executives the carriers would receive approximately \$500,000,000 in additional advances from the federal government within the next six months.

May Ask Appropriation (By the Associated Press)

WASHINGTON, July 7.—Mr. Mellon said that negotiations with the railroad executives would probably be completed within two days and that the advance contemplated would give to the railroads sums of money equivalent to those which the government spent in capital betterment during the period of wartime control. The government will receive for the advances 6 percent securities as evidence of indebtedness of the particular railroads which receive the advances, it is explained.

All of the claims and counter-claims between individual railroad and the government arising out of maintenance expenditures during the control period are involved in the negotiations, Mr. Mellon indicated. Mr. Mellon also indicated that additional appropriations would be sought from congress to make the advance.

POSTAL SAVINGS SHOW GOOD GAIN

Postoffice Report Indicates an Increase in Many Departments.

An increase of \$4,186.90 in postal savings for the fiscal year of 1921 which ended June 30 over savings for the previous fiscal year is shown in an official report submitted today by J. W. Westbrook, postmaster. The report was compiled by Wilbur Lee, assistant postmaster.

Similar increases in several other departments of work in the Ada postoffice are shown in the statement. Insured parcel post jumped 1262 packages last year and collect on delivery pieces increased 344. A jump of 1,534 was indicated last year in the number of pieces of registered mail handled by the local office. No count was made on the amount of outgoing and incoming ordinary mail, according to the postmaster.

There was no additional force added during the last fiscal year but July 1, one mail carrier was put on the local postal force and the city mail delivery service zone was extended to include two city additions.

Money order business at the post office was practically the same number issued and paid. The amount was not totaled for the year ending June 30, 1920. Figures for the year are included in the report. Following is the detailed statement of fiscal year business:

Postal Account.
Year Ended June 30, 1920.

Quarter ended—	
Sept. 30, 1919—	\$6,054.78
Dec. 31, 1919—	7,680.56
March 31, 1920—	8,083.35
June 30, 1920—	7,548.35
Total—	\$29,267.04

Year Ended June 30, 1921.

Quarter ended—	
Sept. 30, 1920—	\$7,213.45
Dec. 30, 1920—	9,224.66
March 31, 1921—	9,411.35
June 30, 1921—	7,442.23
Total—	\$33,291.69

Increase of \$4,024.65.

Insured Parcel Post	1920	1921
Mailed at 3c fee—	3,099	3,183
Mailed at 5c fee—	3,015	3,842
Mailed at 10c fee—	472	723
Mailed at 25c fee—	95	195
Totals—	6,681	7,943

Increase 1,262.

Collect on Delivery	1920	1921
Mailed at 10c fee—	2,817	3,167
Mailed at 25c fee—	8	2
Totals—	2,825	3,169

Increase 344.

Registered Mails	1920	1921
Domestic letters—	4,421	6,174
Foreign letters—	87	140
Official letters and parcels—	392	120
Totals—	4,900	6,434

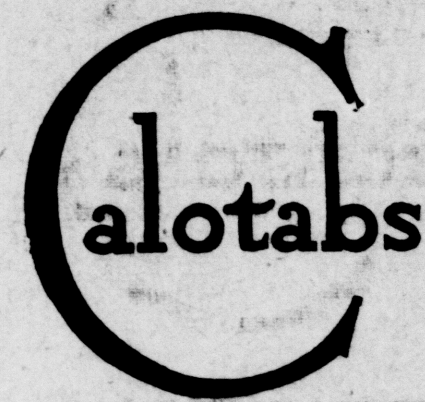

Increase 1,534.

The money orders issued and paid are practically the same, that is in number the amount was not totaled for the year ended June 30, 1920, but to give you an idea of how it runs I am giving the figures for this year.

No.	Value
Money Orders issued—	
(Domestic)—	15,218
Money Orders paid—	
(Domestic)—	7,469

Three Held Not Guilty
A call for jury trial was filed and honored yesterday before Justice of the Peace H. J. Brown in the cases of Pog Jones, Bruce Myers and Hebbrew Myers, of the Pickett neighborhood, on charges of being drunk. After a trial before a crowded court room, the jury held the defendants not guilty and they were released from the charge.

BIG CREW REQUIRED TO MAN GIANT ZR-2

(By the Associated Press)

LAKEHURST, N. J., Aug. 23.—The daily routine in the handling of the giant American dirigible ZR-2, which starts this week on its trans-Atlantic flight from England, requires the combined services of a large crew of expert mechanics, riggers, clerks and navigators.

Both on the ground and in flight the ZR-2 is "nursed" constantly, for thousands of the minute details in her construction require constant inspection.

Taking "life" and "trimming" is the first thing done in daily routine. This means calculation of the ship's total lift by adding the amount of ballast (water, gasoline, oil, etc., on board) and noting its location on a short.

In this manner the total lift of the ship from day to day is noted and, if there is a decrease and no gas has been valued, an inspection is made for leaks. By noting the location of ballast, any tendency for uneven distribution may be seen and remedied—it is desirable to keep weights distributed as evenly as possible along the length of the ship to avoid stresses on the hull structure.

Ship Is Cleaned.

The ship is thoroughly polished, or cleaned, then the engineers test and repair engines, the riggers inspect controls, gas bags, valves, the outer cover and fin surface.

There always is a considerable amount of breakage of small braces and wires, necessitating a constant hull inspection. The outer cover fabric gets torn or blown loose at joints and repairs are made immediately to prevent the holes from becoming larger. Gas bags are inspected by going over them with a leak detector which registers any escape of escaping hydrogen. Fabric in the bags is very fine work consists of weekly check-through, consequently, there is loss of gas, lowered purity and lift reduction.

Once a week the purity of each bag in the ship is taken, this serving as a check on the general condition of gas tightness. Other routine work consist of weekly checking of the tensions of the various wires and correcting any discrepancies, cleaning and reseating water ballast discharge valves and a general inspection of all controls.

In preparing for flight it is necessary to learn how large a crew will be carried and the length and nature of the flight. It is then possible to determine how much gas will be needed to give the necessary lift.

WOULD YOU MAKE A GOOD WITNESS IN MURDER CASE?

Can you see straight, and if so, can you hear as "straight" as you see?

If you can, you're the exception and on the witness stand you'd be worth more than the 99 others that might be picked up at random. This is the opinion held by local attorneys who declare that the vacillating, "wobbly" testimony of witnesses who either are "not sure" or "purely speculative" is one of the most disheartening things of the court-room.

One Ada attorney cited a specific instance. A murder case in which five shots were fired at peculiar intervals is being tried. Out of ten witnesses who heard the shooting five probably will swear they heard three shots. At least three will swear there were seven, one will not be certain and perhaps the remaining one will give positive testimony as to the correct number. And in addition to this, each probably will give a different story as to the interval between shots.

The majority of indifferent individuals don't look closely, lawyers declare. Unless there is something about a man's face, not one witness in five can positively identify him after meeting him on the street, it is said. And almost all witnesses will throw up their hands in horror when asked to describe minutely how a particular man walked. If he was one-legged or bald headed, they may remember these features. But such a thing as color of the eyes, the shade of the hair, outline of the face, angle of the nose and other facial characteristics are beyond the ordinary observer.

RAPIDS ARE CUT MAKING MONSTER STREAM SHALLOW

SAULT, STE. MARIE, Mich., Aug. 23.—Modern engineering has broken the prestige of the old time Soo rapids, reducing to rocks and shallow pools a stream which, in the days before the Civil War, schooner pilots plied with no fear of hitting bottom.

Completion of the last of the compensating dams above the rapids has brought to the surface moss-clad rocks hidden for centuries, and is now possible to wade across a space where, in 1852, there was a stream of such respectable volume that the sailing schooner Uncle Sam passed easily.

Capitulation of the rapids, which has drawn nearer and nearer during 70 years, reached its climax with startling quickness recently when, within an hour after the close-

ing of the dam, the rapids became gaunt rock and disconsolate rivulets.

The scent of fish and the moss filled the air. In pools where some unwary creatures of the water who had not taken flight in time, and the anglers hastened for their kits. Most of the fish in the rapids had taken refuge in the lower river as the water receded.

But the passing of the rapids brings some joy, for fishermen believe the remaining pools, some of them several feet deep, will attract the rainbow and speckled trout, and that these will be more easily snared.

Dams above the rapids were constructed to regulate the depth of Lake Superior and to obtain a steady drift of water in the locks.

Foreign Trade and the Interior Bank

AN OHIO VEGETABLE CANNERY—THE INDUSTRIES OF THE SMALL INTERIOR TOWNS SUPPLY A LARGE PART OF OUR FOREIGN TRADE.

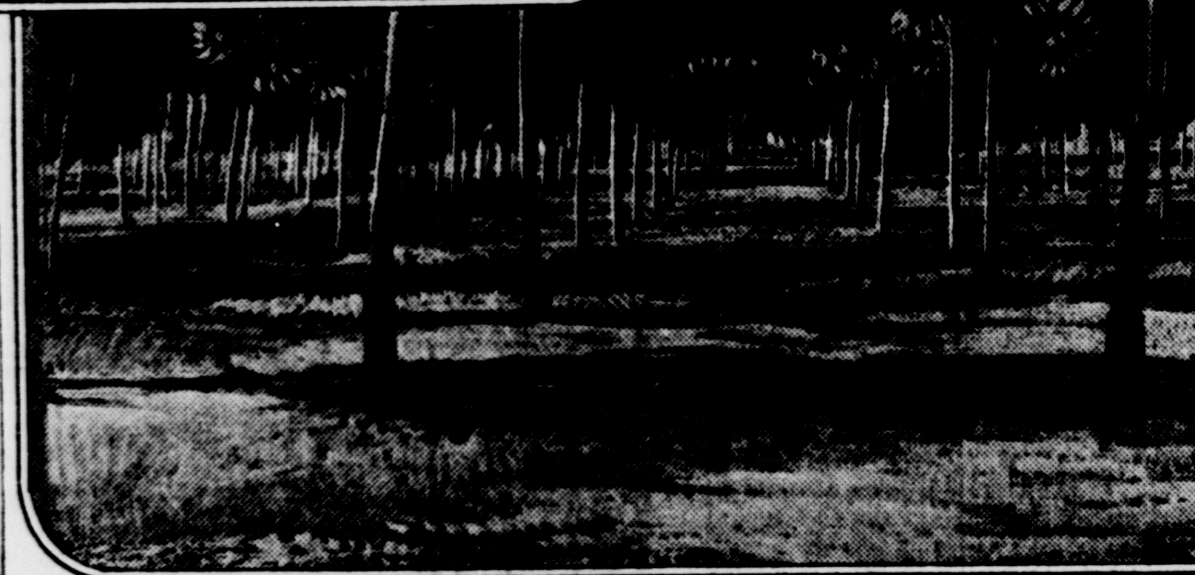

By FRANCIS H. Sisson, Vice President Guaranty Trust Company of New York.

As a result of the war, this country has been forced into many new industrial and financial activities that reach out into every foreign country, activities which affect the welfare of the smaller communities nearly as much as they do those of the larger cities. Manufacturers in small towns throughout the United States have become interested in the possibilities of foreign markets, and they naturally are looking to their local banks to advise them regarding their foreign trade problems both actual and potential. We believe that the time has come for the interior bank to realize that the biggest thing it has to sell is service, and that one of its greatest opportunities is to aid in the development of American foreign trade.

We have learned by recent experience that the factories of America are today so huge and their output at full capacity is so great that the domestic market cannot regularly absorb it. It is only by a constant flow of overseas trade that we can run full time all the time. To do less than that means homes in American in which the breadwinner is out of work.

Increased orders from foreign countries tend to change the seasonal demands to year round demands. The manufacturer who has a market for his goods in South America, for instance, possesses a great advantage, because the seasons there are exactly the reverse of our own. And so, because the markets of all the world are greater and steadier than the markets of any one country, the American manufacturer and merchant must cultivate the foreign field, and the interior bank, in co-operation with the international bank, must be prepared to offer facilities necessary for the prompt and efficient handling of foreign trade transactions.

That the interior bank is vitally interested in the development of

A SOUTH AMERICAN RUBBER PLANTATION SUPPLYING ONE OF THE IMPORTANT PRODUCTS WHICH OUR INTERIOR INDUSTRIES MUST BUY FROM ABROAD.

foreign trade is evident from the fact that a large proportion of the manufactured goods exported from the United States is produced in towns with a population of fifty thousand or less. There are two thousand one hundred and forty-nine towns of this class. As to our import trade, it is only necessary to point out, for instance, that Akron, O., with a population of one hundred and fifty thousand, buys about one-fourth of all the crude rubber in the world. In four hundred and sixteen cities of ten thousand to twenty-five thousand, in 1914, the total value of manufactured products was \$3,261,395,000.

Cities of fifty thousand and less make up a large proportion of our manufacturing area and present almost unlimited possibilities from the foreign trade standpoint. There are one hundred and thirty-three towns of this class in Indiana and the same number in Massachusetts. The most cursory examination of the manufacturing facilities of these hundreds of small towns reveals their possibilities from a foreign trade point of view.

And the manufacturers in those towns are no longer groping in the dark in regard to foreign affairs. Practically all of them are members of powerful trade associations. They journey in large numbers from the small interior towns to New York or San Francisco to attend foreign trade conventions, and they are diligent readers of foreign

trade publications. But in far too many cases when they go back home they do not find in their own town the facilities for obtaining the information for transacting their foreign business. Export shipments are made constantly from all these small towns. Imports of raw materials needed in our industries are constantly flowing from the seaboard to the interior. All these transactions involve the services of banks. The interior bank may interpose itself as a useful link in the system of overseas trade.

It is obvious that the interior bank cannot set up elaborate machinery and an expensive personnel equipped to answer specific inquiries regarding foreign trade. The international bank has, however, built up a worldwide network of branches, affiliations and special correspondents, backed up by staffs of experts in the metropolis, which is freely offered to the interior banker in order to assist him to develop the foreign trade of his community.

To illustrate concretely just what this means, let us examine the facilities which are offered to the interior bank by the large international financial institutions. First of all, they have direct banking connections with Great Britain and Continental Europe, the Near East, Latin-America, South Africa and Australasia, with China, Japan, British India, the Dutch East Indies and with the Straits Settlements.

They are in direct and constant communication with thousands of correspondents in every trade center of any importance throughout the world.

In their foreign trade services these international banks have created departments to give specific commercial information, by interview or by mail, regarding the prospect for the sale of American goods abroad. They have immediate access to reports regarding the credit and commercial standing of hundreds of thousands of foreign firms and corporations, all of them carefully revised to cover changes made during the war.

These departments include in their personnel experts on tariffs, marine insurance, freights, forwarding, customs duties and shipping documents, and men who have traveled extensively in foreign countries. Supplementing their personal knowledge of foreign countries and of the manners and customs of the

GRAIN ELEVATORS IN IOWA—THE INTERIOR BANKS ARE HELPING THE AMERICAN FARMER FEED THE WORLD.

A TYPICAL MIDDLE-WEST BOARD OF COMMERCE BUILDING—THROUGH COOPERATION WITH THESE INSTITUTIONS THE LOCAL BANKS ARE AIDING BUSINESS MEN IN WORLD MERCHANDISING.

peoples inhabiting them is a daily service of information by mail, wire and cable from private and official sources and from their branches, subsidiaries and agents throughout the world regarding changing conditions, new demands for American products and movements of foreign buyers. Over the desks of these experts there passes each day a large quantity of written and printed material in all languages, and items of interest to American exporters and importers are sent out promptly to especially selected mailing lists.

There are a number of ways in which the interior banker can foster interest in foreign trade in his community. The local public library, for instance, can be utilized most effectively in foreign trade promotion. It should be supplied with a good selection of books on foreign commerce, foreign countries and foreign travel, commercial geography, international law, tropical and sub-tropical and other imported

commodities, atlases, books on shipping, on marine insurance and foreign exchange, international banking and ports and harbors. The local schools can do similar work.

Most important of all, however, is the proper organization of the business men of the community. The Chamber of Commerce should form a center for the foreign trade activities of its members. It should maintain an up-to-date list of all members doing an exporting or importing business, handled and of the foreign countries in which the members are interested. A foreign trade reference library should be installed in the local Chamber of Commerce and should contain directories of foreign markets and directories and list of American exporters, exporting manufacturers, dealers and commission houses. This library should receive regularly all the publications of the Bureau of Foreign and Domestic Commerce.

Direct contact should be established with the American commercial attaches and trade commissioners maintained by that bureau in foreign countries. Arrangements should be made to obtain regularly the foreign trade publications of the National Foreign Trade Council, the American Manufacturers' Export Association and of the large banks which specialize in foreign trade. Subscriptions should be made to the leading export trade journals. Foreign visitors to this country should be encouraged to visit the local manufacturing plants. Another effective method of obtaining information direct from foreign sources is for the local Chamber of Commerce to arrange for the exchange of membership and services with American Chambers of Commerce in foreign countries.

The interior banker has an important part to play in the development of our import trade, as well as that of our exports. Our dependence upon other countries for foodstuffs and raw materials grows constantly greater with the increase in our population and the productive capacity of our industries.

In order to provide a sustained market for our surplus manufactures we must have a regular and increasing supply of many commodities which are not produced in the United States, or which are produced in such small volume as to be entirely inadequate for our requirements.

The interior importer must have facilities for buying these commodities in distant lands. He may desire help in locating sources of raw materials, advice regarding reliable foreign exporters and market conditions and on how he may establish the necessary import credits through his local and international bankers.

If our foreign trade is not to suffer through inadequate financing, we must give thought to some form of long term credits in order to supplement the operations of the international banks and to make liquid the frozen long-term credits in foreign markets. To meet this situation the Edge law was recently passed. This law gives us, for the first time in our history, financial organizations for the express purpose of assisting foreign trade through long term investments. The original Federal Reserve Act authorized the establishment of branches by our national banks in foreign countries. The Edge law goes one step further in providing for the information of these foreign investment banks under Federal charter. A most important provision of the Edge law is that which permits corporations formed under its provisions to issue their own notes and debentures for sale to investors.

The interior banker, therefore, plays a very definite part in educating his community in the relation which our overseas commerce bears to domestic prosperity and in pointing out the desirability of such securities in order to make possible a continuous and increasing flow of foreign orders.
